

Here's the Access Link and Information!

And, Thanks for your Interest in this Product

Free Demo Information

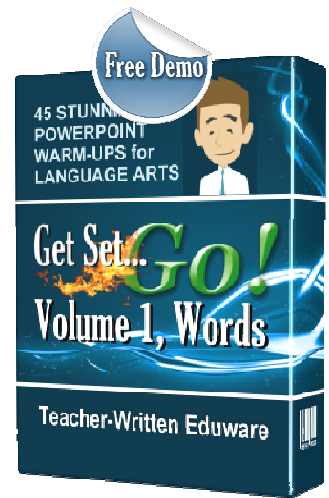

This free, trial version of *Get Set...Go!, Volume 1, Words* is complete and fully-functional. Its purpose is to illustrate the functionality and scope of its content.

The [full, registered version](#) is exactly like this trial version; however, all of those annoying "Free Demo" watermarks have been entirely removed.

Accessing the Materials

on PC's, Laptops, Macs, and MacBooks

Get Set...Go! will run on all of the most widely-used browsers, including Internet Explorer, Firefox, Google Chrome, and Safari. Simply click <http://tinyurl.com/h72y3uf> to begin. The Teacher's Checklist may be downloaded at <https://is.gd/9vKBli>.

Go to Full Screen in Your Browser

Selecting the full screen option in your browser will remove the distracting tabs and search boxes from the top of your screen, creating a cleaner, uncluttered presentation.

To enter and exit full screen, simply press the F11 key. This method will work in Firefox, Internet Explorer, Safari, and Chrome.

Upgrading to the Full Version

If you and/or your kids like what you see in this free demo version, I'd be delighted for this to become a permanent part of your classroom resources library.

The [full, registered version](#) is exactly like this trial version, but as mentioned before, all of those annoying "Free Demo" watermarks have been entirely removed.

Thanks Again!

I truly appreciate your taking the time to download this resource and your intention to give it a trial spin or two. Best wishes always and thanks for all you do for our kids!
