

Dear parent(s),

As you may already know, reading is a large priority in our school. The curriculum requires that children read regularly, and develop their comprehension skills by developing their own reading habit.

I am always trying to capture students' attention and engage their interest in reading many different genres and subjects. I will not censor your child's reading choices. They will be responsible for making their own choices. If you are concerned about what they read, I suggest you browse through the selections they bring home, and inform them of what to do if you do not approve of what they are reading.

Please note that I have made responsible attempts to only have appropriate reading material on my classroom library shelves. In order for your child to borrow any books in my library, you must fill out this form, sign it, and have your child return it to me.

Thank you,

Teachers name and subject here

Choose one of the following and sign.

I consent to allow my child to censor his/her own reading choices.
