## Free Demo Information

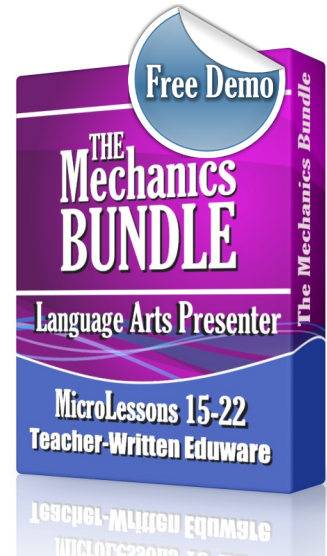

This free, trial version of *The Mechanics Bundle* is complete and fully-functional. Its purpose is to illustrate the functionality and scope of its content.

The [full, registered version](#) is exactly like this trial version; however, all of those annoying “Free Trial Version” watermarks have been entirely removed.

## Accessing the MicroLesson Trials

*on PC's, Laptops, Macs, and MacBooks*

These MicroLessons will run on all of the most widely-used browsers, including Internet Explorer, Firefox, Google Chrome, and Safari. To open each application, simply copy and paste its corresponding URL into your preferred browser's address bar.

## Enlarging the Displayed Images

If the presentations are difficult for students at the rear of the classroom to view comfortably, simply increase the zoom setting on your browser.

The zoom setting is typically in the upper-right corner of your browser window, often in the “Settings” menu or accessible through the gear icon:

Increase the zoom level here.

## Upgrading to the Full Version

If you and/or your kids like what you see in this free trial version, I'd be delighted for this to become a permanent part of your classroom resources library.

The [full, registered version](#) is exactly like this trial version, but as mentioned before, all of those annoying “Free Trial Version” watermarks have been entirely removed. Plus, a word search and a crossword puzzle specific to each MicroLesson are included!
